

FLOOD RE INSURANCE SCHEME – INFORMATION RECEIVED FROM HAMPSHIRE COUNTY COUNCIL – MAY 2016

Even if your house suffers no problems, you might have difficulty obtaining insurance because of living in a postcode defined as a flood risk. We have received the following message from Julie James, Senior Emergency Planning Officer for HCC.

"I wanted to draw your attention to the long awaited "Flood Re" Insurance Scheme that is now in place. The idea of this scheme is that those living within a flood risk area should now be able to obtain "affordable" insurance, as every householder in the UK will be contributing a small amount into a central fund taken directly from their premiums. I have attached the link below which details all of the insurance companies that are participating in this scheme as well as helpful information and links to further advice."
